

How to Register your software

Send me via e-mail this **PRODUCT ID** code. This is unique to the computer that generated it .

Optional, Your name will be displayed as a registered user once registered

The screenshot shows a 'Register' dialog box with the following elements:

- Header: 'Register' (with a question mark icon)
- Text: 'To purchase a licence for this software, visit www.jarsofelectrical.com, and follow the instructions. You will need your unique Product ID from the box below'
- Form fields: 'User Name:', 'Product ID:', and 'Registration Key:'
- Logo: A yellow square with a red question mark and 'mm²'
- Text: 'This Product ID code is unique to this computer.'
- Text: 'Enter your Registration Key in the box below and click 'Register', or click 'Trial' to start your free trial'
- Section: 'License agreement' with a scrollable text area containing: '1. Installation. This software has been made to run on Windows XP, Windows VISTA and Windows 7 operating platforms. Whilst this software has been checked and tested, no claims against jarsofelectrical can be made in respect of subsequent system interruption and/or failure following installation'
- Text: 'By using this software you agree to the license agreement.'
- Buttons: 'Exit', 'Register', and 'Trial'

Enter your **REGISTRATION** key here when it is sent to you

Press the Register button to unlock the software, once you have entered your Registration key.

TRIAL button to start the trial period

Software licenses are locked to the hardware and the operating system of the computer used and are not transferable. Once purchased the license will be valid for all future versions of the corresponding application

Every different computer will need a separate licence as it will have a different Product ID code.

To receive your registration key / licence, please e-mail me the **PRODUCT ID** code that is generated on the **REGISTER** page of the software of the computer it is installed on, I need your **PRODUCT ID** code so that I can send you a **REGISTRATION** key to unlock the program. Please ensure you type the **Product ID** code carefully. The **Registration** key will **ONLY UNLOCK THE COMPUTER THAT GENERATED THE PRODUCT ID CODE** that you sent.
